

# Frommelt® Fire-Shield™ Safety Blanket

FROMMELT SAFETY PRODUCTS

## HIGH-TECH HEAT AND FLAME SHIELD

### LIGHTWEIGHT DESIGN

Weighs less than 3 pounds and can be held in place with tape or wire ties

### IMPERVIOUS TO FLAME

Protects against high heat and accidental melting or burning

### LARGE SIZE

50" x 80" black blanket fits most auto hoods and machines. Square foot pricing available

### RESISTS SPARKS AND SPLATTER

Protects vehicles and other equipment from burns and damage

### CONVENIENT PACKAGING

Felt-like, high-temperature material is provided in zippered packages for easy storage

## INCREASE SAFETY WITH THE FROMMELT FIRE-SHIELD BLANKET

The Frommelt Fire-Shield blanket is the ideal solution to address contact burn and spark protection. The high-tech fabric helps prevent damage from heat and flame, and will not allow accidental burns. Additional Silca material layer can be added for increased heat protection upon request. The lightweight blanket can be easily secured in place with tape or wire ties, and is packaged in reusable zippered plastic for easy storage.
